

AtomQuest Goals Portal

Enterprise HR Performance Management Platform

⚠ THE PROBLEM

Traditional Performance Tracking Is Broken

Enterprise HR teams are still managing goals in fragmented tools — spreadsheets, email chains, and siloed systems that create blind spots, missed deadlines, and compliance gaps.

Spreadsheet Dependency

Goal data lives in disconnected files with no version control or single source of truth.

Zero Visibility

Managers lack real-time insight into team progress until it's too late to course-correct.

Delayed Approvals

Manual sign-off chains stall goal activation, pushing timelines by days or weeks.

Disconnected Workflows

HR, managers, and employees operate in silos with no unified approval or check-in process.

Painful Appraisals

Quarterly reviews lack structured data, making fair and consistent evaluations nearly impossible.

💡 THE SOLUTION

One Centralized Platform. Every Role. Every Workflow.

Employee:
Submit Goals

Manager:
Review &
Approve

Admin: Audit &
Track

AtomQuest Goals Portal unifies the entire performance cycle — from goal creation and approval to quarterly check-ins and executive reporting — in a single enterprise-grade platform.

Goal Management

Structured creation with weightage rules and lifecycle control.

Approval Workflows

Multi-tier sign-off with status tracking and notifications.

Quarterly Check-ins

Structured mid-cycle updates with manager commentary.

Analytics & Audit

Real-time dashboards, heatmaps, and immutable audit logs.

CORE FEATURES

Everything an Enterprise Needs, Out of the Box

Goal Creation

Weighted, structured goal entry with validation rules.

Approval Workflow

Multi-role review and sign-off with status visibility.

Quarterly Check-ins

Periodic progress updates tied to each active goal.

Shared Goals

Cross-functional goals visible and trackable across teams.

Analytics Dashboard

Real-time KPIs and progress metrics for every role.

Reports & Exports

CSV and PDF exports for HR compliance and audits.

Audit Logs

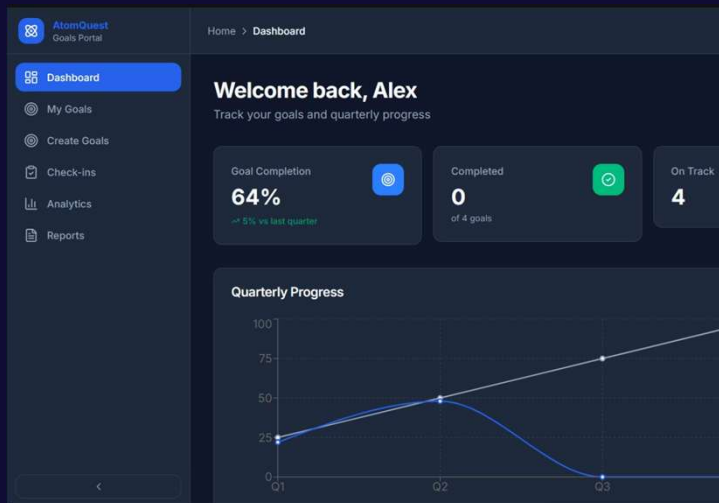

Immutable, timestamped change history for every action.

Role-Based Access

Granular permissions for Employee, Manager, and Admin.

A Dashboard Designed for Productivity

What Employees See & Do

→ Personal Dashboard

At-a-glance KPI widgets showing goal count, completion rate, and pending actions.

→ Goal Creation & Submission

Guided form with real-time weightage validation — submit for manager approval in seconds.

→ Progress Tracking

Visual progress bars and milestone markers keep employees focused on what matters.

→ Quarterly Updates

Structured check-in prompts ensure timely self-assessments every cycle.

MANAGER & ADMIN EXPERIENCE

Full Organizational Visibility & Control

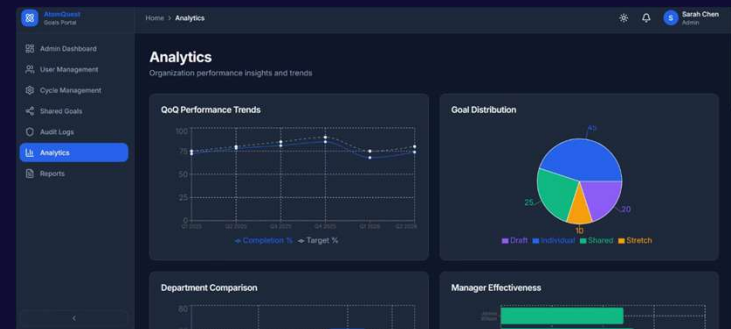

Manager View

Review and approve team goals, submit check-in commentary, and unlock goal revisions when needed.

Admin View

Organization-wide metrics, completion heatmaps, department rollups, and compliance audit exports.

Team Analytics

Aggregate goal progress by team, department, or cycle.

Completion Heatmaps

Identify performance patterns across the organization visually.

Unlock Controls

Managers can unlock approved goals for amendment with a full audit trail.

Audit Logs

Every state change is logged with user, timestamp, and before/after values.

Intelligent Validation Rules Built In

Every goal passes through a governed lifecycle. Validation is enforced at every stage — no manual workarounds possible.

1 100% Weightage Rule

Total goal weights must sum exactly to 100% before submission is permitted.

2 Max 8 Goals

Employees may define up to 8 goals per cycle — keeping focus sharp.

3 Min 10% Per Goal

Each goal must carry at least 10% weightage to ensure meaningful commitment.

4 Lock After Approval

Approved goals are immutable. Only a manager unlock re-opens editing.

Modern Architecture. Real-Time Insights.

Analytics Capabilities

Quarter-over-Quarter Analytics

Track goal completion trends across cycles with Recharts-powered visualizations.

Reporting & Exports

CSV and PDF exports for HR compliance, audits, and leadership reviews.

KPI Dashboards

Role-specific metric cards surface what each user needs most.

Completion Heatmaps

Admin-level visual density maps for spotting organizational performance gaps.

Technology Stack

Frontend

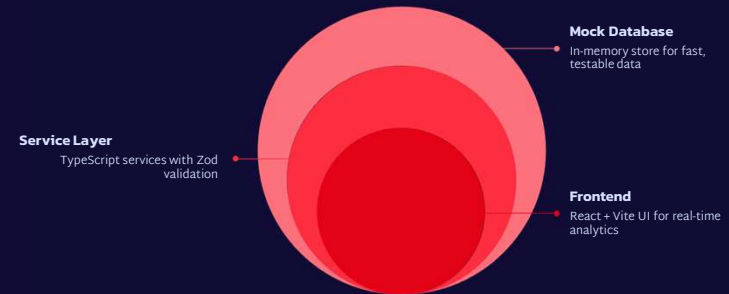

React · TypeScript · Vite · Tailwind CSS

Routing & Forms

React Router · Zod Validation

UX & Charts

Framer Motion · Recharts

FUTURE SCOPE

What Comes Next

Azure AD Integration

SSO and identity management for seamless enterprise onboarding.

Microsoft Teams Bot

Goal nudges, approvals, and check-in reminders inside Teams.

AI Recommendations

ML-powered goal suggestions based on role, history, and org benchmarks.

Advanced Analytics

Predictive performance trends and executive-level BI dashboards.

Notification Automation

Smart deadline alerts, escalation chains, and cycle reminders.
